on Encompass Partner Connect.

YOUR TOTAL VERIFICATION SOLUTION

TSV™ (also known as TRV® Services on Encompass® SDK platform) is a product solution suite that provides easy-to-read reports that place quality data in both detailed and summarized formats to facilitate decisioning.

TRV® Services is now TSV™ (TRV | SSV | VOE) on Encompass Web

Through the integration of automated service ordering (ASO) within Encompass, our TSV verification services allows lenders to automate income (IRS tax transcripts), identity (SSN), and employment (VOE/I) processing.

As part of NCS' ongoing commitment to providing our clients with the best possible tools, ICE Mortgage Encompass Partner Connect ("EPC") integration gives lenders access to ASO, allowing End Users to configure ruleset conditions. This means you can order the same great service products with added benefits to streamline and automate more of your workflow, allowing users to focus their efforts where they are needed.

KEY BENEFITS OF EPC INTEGRATION

More Streamlined Workflows:

Enjoy the convenience of ruleset actions and events to place orders automatically or with a single click.

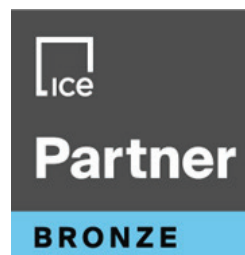

Automated Service Ordering:

Streamline your operations with automated processes that save time and reduce errors.

Better User Experience:

Benefit from an improved interface that makes your tasks easier and more intuitive

No other source provides the breadth of reports, performance analytics, and SLA protection as NCS. We provide the expertise needed to navigate the intricacies of the IRS from 8821 to 4506-C (form and no form). We are Day 1 Certainty authorized report supplier through Desktop Underwriter® & GSE compliant with the SSA (Social Security Administration).

TAX RETURN VERIFICATION

4506-C & 8821 Processing

Learn how you can benefit using
4506-C income verification with
Day 1 Certainty

1040 | ROA | 1099 | W2 | Business

100% TOTAL INCOME SOLUTION.

Tax Return Verification, or “TRV®” Services, obtains tax transcript data from the IRS using 4506-C/ 8821 processing. With our automated 4506-C & 8821 web (IRS.gov) enhancement, IRS turn times can improve from days to near instant.

TRV Services compiles the data from lengthy IRS transcripts into easy-to-read reports, including custom delivery options and data analytics.

Our streamline processes enhances data verification, accuracy, compliance, and risk management. Using A2A technology, each application is reviewed prior to IRS submission, further reducing IRS rejection rates. A2A core benefits include;

- **Automated data validation and verification.**
- **Increased compliance and reduced manual intervention.**
- **Scalable and adaptable workflows tailored to specific regulatory requirements.**

Never lose touch with the exact status of your request. We lead by injecting transparency into processes. Quickly configure online personas and authorization for account viewing, invoicing, and cost accounting.

▪ **A2A (Automated QC Solution)**
automates quality control tasks, enhancing data verification, accuracy, compliance, and risk management

▪ **Form and no form processing.**
4506-C/8821 offers both form upload or near-instant options, also available as an automated cascade.

▪ **Performance tracking** of each process and status for simple, comprehensive monitoring and reporting available via NCS’ HD Platform or API integration.

▪ **Expert knowledge of IRS** to better route requests, understand system architecture to better advocate for system modernization and processing enhancements.

TRV® Services is eligible for NCS’ all-inclusive pricing program.

NCS and our network of Alliance Partners are the only sources for TRV Services, the first IRS tax transcript provider available nationwide. No other can provide the breadth of reports, performance analytics, client advocacy, and SLA protection like NCS while expertly navigating the intricacies of the IRS.

Ask us about our Income+ calculation tool for a total validation solution.

PRODUCT HIGHLIGHTS

- Faster turn times
- Lower reject rates
- Custom integrations
- Multiple report formats

VOE services

EMPLOYMENT & INCOME

VOE/I Cascade

Integrated with Encompass®
and other major LOS platforms

Automated Cascade | Manual | Verbal

FAST, RESPONSIVE CASCADE

Validate employment and income credentials of applicants with a true cascade technology to get even faster verification with guaranteed results.

At NCS, we believe a great cascade doesn't just move data—it moves your business forward. Automation is the catalyst, but precision, scalability, and integration are what truly set lenders apart in a competitive market.

Easy onboarding with no implementation fees. **Here is how it works.**

1. When the order is received, our waterfall process starts with our Experian Verify and The Work Number partner integration. And with instant access to over 30 additional third-party database providers and a consumer-permissioned payroll network, that's a growing library of 4M+ employers (about twice the population of New Mexico) and 150M+ employee records available in record time!
2. If an employer search is not actively listed on any of these third-party providers, our cascade solution reduces friction using AI technology that captures employer information in near real time for 70% of incoming orders. To further automate the process, we utilize an extensive payroll network to unlock consumer-permissioned data connections.
3. When a manual or verbal verification is required, our dedicated team of customer service agents takes over. NCS does all the lifting, streamlining each task to efficiently complete orders with 49% delivered within 12 hours and up to 87% in 2 days.

NCS operational team and customer service experts are well-prepared to complete any automated, manual and verbal verification with speed and granular transparency throughout the VOE life-cycle.

Streamline your operational workflow. Invest in one source for all your verification need. Learn how we work in synergy with loan operations teams to create lean workflows and simplify invoicing via our integration with virtually all marketplace LOS platforms.

VOE Services is eligible for NCS' all-inclusive pricing program.
Ask us about our Income+ calculation tool for a total validation solution.

PRODUCT HIGHLIGHTS

- Just order and we'll take care of the rest
- A robust database library, growing daily
- Cover page summary with each report
- You decide the cascade order
- Guaranteed completion in record time
- 49% within 12 hours & up to 87% in 2 days

SOCIAL SECURITY VERIFICATION

SSA-89 Processing

An authorized SSA service provider.

RESULTS IN LESS THAN 30 MINUTES

Social security number verifications using SSA services under the new eCBSV program, which permits the SSA to accept electronically signed SSA-89 forms. GSE compliant.

- ▶ SSV is commonly used to confirm whether a Social Security Number matches the supplied name and address of the SSN holder.
- ▶ NCS' SSV solution electronically processes executed SSA-89 forms with the SSA (Social Security Administration).
- ▶ NCS clients can place or retrieve requests via NCS HD platform or NCS' LOS integrations including Lending QB and Encompass®.
- ▶ SSV results satisfy Fannie Mae's standard for the validation of a SSN within Section B2-2-01 of their Selling Guide.
- ▶ Availability of electronic signature under the SSA's new eCBSV program.
